M: +44 7980 892 762 E: team@yourskipper.co.uk

Objective

I am available for deliveries and relief positions of up to approximately 14 days duration, or alternatively Project Management and Refit Work. I am happy and willing to work as Captain, Mate or OOW depending on the vessel, and have experience in both sail and power.

Overview

After the last 10 years at sea with my wife running yachts of between 80 – 195 ft primarily as a Captain and Stewardess/Deck team, we are now living ashore.

I have cruised extensively from the Arctic to the Mediterranean and the West Indies to the Eastern Seaboard of the States, starting with a sailing background from a young age and moving onto power boats for the last nine years.

I have a strong mechanical, electrical, IT, networking and electronics background and have been involved in managing various refits, including bringing vessels into class for the first time, and creating / implementing mini ISM's.

During recent summers, my wife and I restored a ruined barn on the west coast of Scotland, this explains our tendency to only take short term contracts, see www.OurBarn.net for more details.

This project was finished in 2009, after which I ran a 41mtr motor yacht, Rob Roy until she was sold. This included full commissioning and improvement of all systems on board, managing the marketing / brokerage process on behalf of the owner, and various trips throughout the Mediterranean. After her sale, I worked in various short term positions, free-lance, before my old boss employed me again to run his 41mtr Dubois sloop, until she was also sold!

If you have any questions or would just like to have a chat, please don't hesitate to call or email, I look forward to speaking with you soon.

All the best

Qualifications
